

Echo Barrier Hub

Manufacturing guide

How to work an order: download it, confirm it, finish it

What changed

Purchase orders are no longer attached to an email. Every order now has its own page in the Echo Barrier Hub, where you download it, confirm it with your dates, and press Manufacturing finished once the whole order is manufactured and packed. The email only tells you a new order has arrived and links you to that page.

Three steps on every order

- 1 Download the purchase order. It is the document you build from.
- 2 Confirm the order. Enter the estimated start and finish of manufacturing. Both dates are required: we plan the transport around them.
- 3 Manufacturing finished. Press it when the whole order is manufactured and packed, so we can arrange the collection.

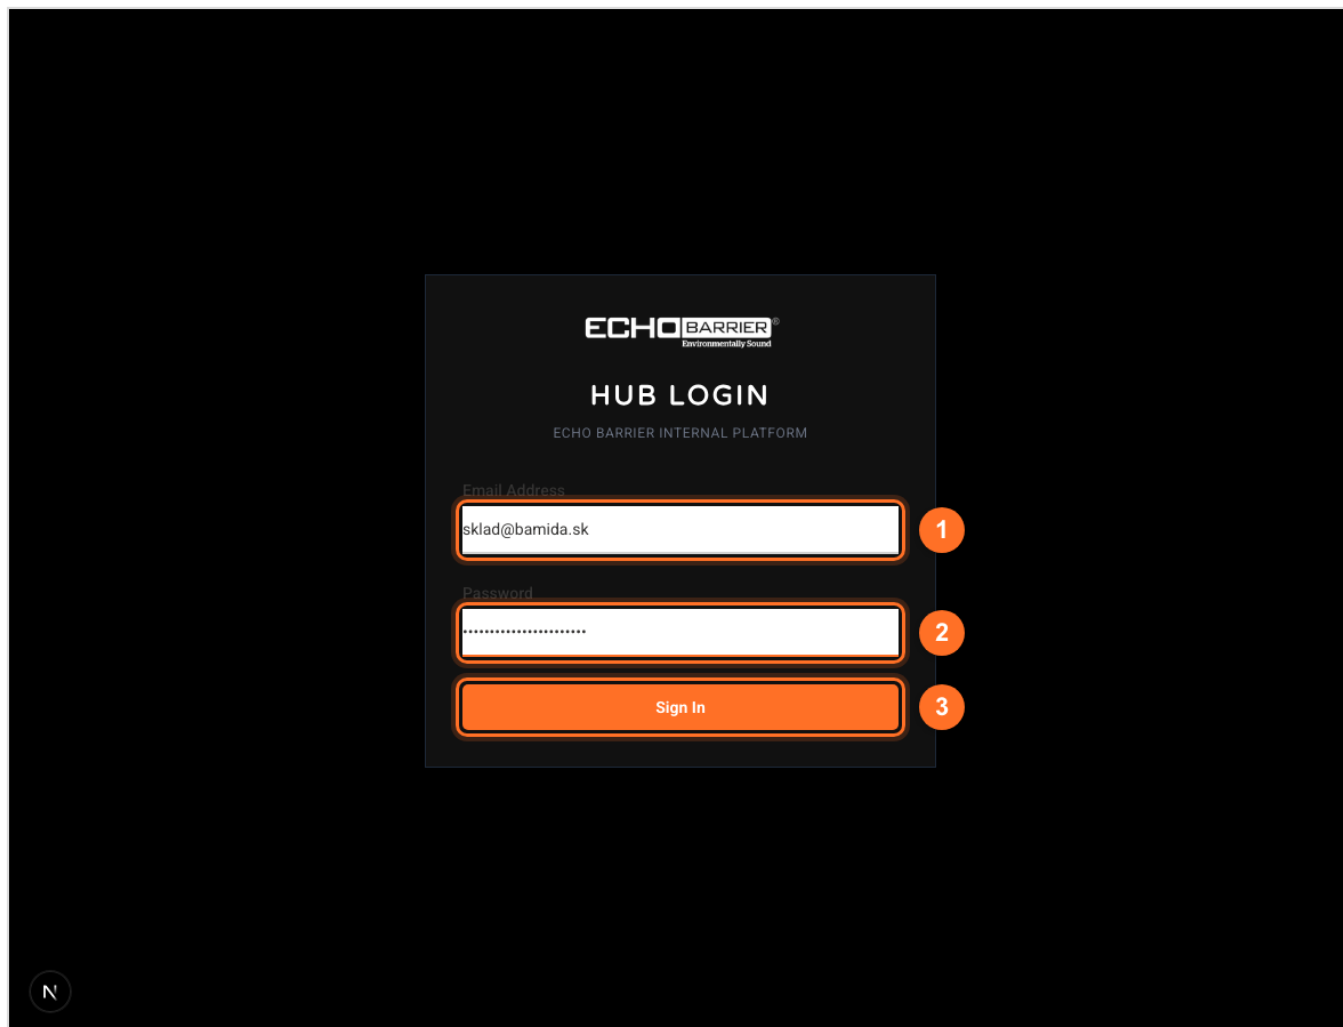

IMPORTANT

Press Manufacturing finished only when the whole order is manufactured and packed, not just part of it. It can only be pressed once and cannot be undone.

Signing in

The username and password are in the email that came with the order. The password does not change.

- 1 Enter the username. It is the email address from the order email.
- 2 Enter the password. Save it in your browser the first time, so next time it is one click.
- 3 Press Sign In.

The screenshot shows the 'HUB LOGIN' interface for the 'ECHO BARRIER' internal platform. The page has a dark background. At the top, the 'ECHO BARRIER' logo is displayed with the tagline 'Environmentally Sound'. Below the logo, the text 'HUB LOGIN' and 'ECHO BARRIER INTERNAL PLATFORM' are centered. The login form consists of three main elements: an 'Email Address' input field containing 'sklad@bamida.sk', a 'Password' input field with masked characters, and an orange 'Sign In' button. Three orange circular callouts with numbers 1, 2, and 3 are positioned to the right of the form, pointing to the email field, the password field, and the 'Sign In' button respectively. In the bottom left corner of the dark area, there is a small circular icon containing the letter 'N'.

Your orders

Signing in opens the Manufacturing tab. Every order we have sent you is here, finished ones included.

- 1
- Click the order you want to open.

The last column is the status: Awaiting your confirmation, Confirmed, In production or Finished.

Steps 1 and 2: download the order and enter the dates

- 1 Press Download purchase order (PDF). This is the document you build from. It replaced the attachment you used to get by email.
- 2 Enter the estimated start of manufacturing.
- 3 Enter the estimated finish of manufacturing.

Both dates are required. We plan the transport around them, so we cannot go ahead without them. Until both are filled in, the Confirm button stays disabled.

The screenshot displays the ECHO BARRIER HUB interface. On the left is a dark sidebar with the 'ECHO BARRIER HUB' logo and navigation options for 'FACTORY', 'Manufacturing', and 'Stock'. The 'Manufacturing' option is selected. The main content area is titled 'ECHO BARRIER HUB' and shows a 'Purchase order GUIDEPO9001-1' with a status of 'Awaiting your confirmation'. Below this, a table lists the products: 'Echo Barrier H9' with a quantity of 350 and 'Echo Barrier H8' with a quantity of 120. The interface is divided into three numbered steps: 1. 'Download the purchase order' with buttons for 'Download purchase order (PDF)' and 'Download priced order (PDF)'. 2. 'Confirm the purchase order' with input fields for 'ESTIMATED START (OPTIONAL)' and 'ESTIMATED FINISH (OPTIONAL)', both containing the placeholder 'yyyy/mm/dd'. A 'Confirm purchase order' button is present. 3. 'Manufacturing finished' with a text box for confirmation.

Purchase order GUIDEPO9001-1 Awaiting your confirmation

Sent to you on 24 September 2026.

PRODUCT	QUANTITY
Echo Barrier H9	350
Echo Barrier H8	120

1 Download the purchase order

This is purchase order GUIDEPO9001-1, the document you would have had attached to the email.

Download purchase order (PDF) 1 Download priced order (PDF)

The priced order is the same order with the agreed prices on it, for your accounts.

2 Confirm the purchase order

Confirm that you have the order. If you can give us rough start and finish dates they help us plan the shipping, but they are not required and you can change them at any time.

ESTIMATED START (OPTIONAL) 2 ESTIMATED FINISH (OPTIONAL) 3

yyyy/mm/dd yyyy/mm/dd

Confirm purchase order

3 Manufacturing finished

Press this when **the whole order is manufactured and packed**, so we can arrange the collection.

Confirm the purchase order first.

Step 2: confirm the order

Once both dates are filled in the button becomes available.

4

Press Confirm purchase order.

You get a confirmation email with your dates straight away. The dates can still be changed until the order is marked finished.

Confirmed on 24 Sept 2026. A confirmation email is on its way to you.

You can still change these dates until the order is finished.

Manufacturing finished

You marked this order finished on 24 Sept 2026. Echo Barrier have been told, and the barriers can be collected.

The Hub as an app on your computer

The Hub can be installed like an ordinary application. It opens in its own window with no browser tabs, and sits with your other programs. Nothing is downloaded and nothing needs updating: it is a window onto hub.echobarrier.com, so you always see the current version.

Chrome and Edge: an install icon appears at the right-hand end of the address bar. Click it and confirm Install. Safari on a Mac: the Share menu, then Add to Dock. If you cannot see the icon, reload the page: it only appears after the first load.

The Hub on your phone

You can open the same page on a phone without retyping the address.

- 1

Click the phone icon at the top right, next to your name.

It works on any page: the code always points at the one you have open.
